For Indoor Beauty GIANT HYBRID **AMARYLLIS**

When the ground is frozen hard and the land-scape is bleak and barren, these gorgeous Amaryllis will fill your home with luxuriant tropical beauty. Originally from Southern Africa, these bulbs, which produce large, Lilylike blooms beautifully formed and colored, are amazingly easy to grow. Just plant the bulbs in a six- or seven-inch pot, with rich, sandy soil, preferably including a little leaf mold, leaving the crown of the bulbs uncovered above

We are pleased to offer you a mixture of striped colors ranging from pure white and varied shades of pink to deepest red.

Giant size bulbs, 65c each; 3 for \$1.50;

(Peruvian Daffodil)

A choice flowering bulb, blooming shortly after planting, producing clusters of striking, pearly white flowers. Very fragrant. Do not plant before soil is warm. Before freezing weather sets in, bulbs should be lifted up and stored in a dry, warm place during the winter.

60c each; 3 for \$1.50; \$5.50 per doz.

Climbing Lily (Gloriosa Rothschildiana)

New!

ACIDANTHERA Bicolor MURIELAE

Although not a true Glad, this novelty resembles them very closely and should be handled in the same manner. The white, Orchidlike flowers, with purple blotch, have a distinctly sweet fragrance. Easily grown, it produces bulblets like the Gladiolus and is a good propagator for your garden. Blooms in August. \$1.55 per 6; \$3.00 per 12; \$21.00 per 100

Our 1951 full color, illustrated bulb catalog, listing Tulips, Daffodils, and other bulbs for fall planting, will be ready for distribution in May, and will be sent to all our customers and friends who receive a copy of this plant list.

CLIMBING LILY (GLORIOSA ROTHSCHILDIANA)

A splendid low climber, easy to grow in the garden; it does well in sheltered spots out-of-doors. Grows 5 to 6 feet high, producing a dozen or more gorgeous Lilylike flowers which open to a bright yellow and red, but change to a deep scarlet. In bloom through the summer and autumn months. Most unusual and rare garden bulb. Store tubers like Gladioli during the winter; may be used season after season. \$1.65 each; 3 for \$4.50

TIGRIDIA (Tiger Flower)

Also known as Mexican Shell Flower, these unique, but little known flowers come from the ancient gardens of Mexico. Flowering in midsummer, the three outer petals form a triangular pattern which is repeated in the arrangement of the three smaller center petals. These center petals are curiously spotted, from which the name "Tiger Flower" is derived. Although the individual flowers last only one day, plants are free blooming and lend a dominant color note to your garden for many weeks. Plants attain a height of 2 to 2½ feet, with short sabre-like foliage, and may be used as cut flowers if the stems are seared immediately after cutting. Bulbs should be planted 4 inches deep in the spring when the soil is thoroughly warm. They prefer rich soil and full sun. In late autumn the bulbs must be dug, dried, and stored in a cool, dry place for the winter.

Varied shades of brilliant orange, scarlet, yellow, pink, white and lilac, blotched and spotted with shades of crimson and maroon.

TUBEROUS BEGONIAS

(Imported from Belgium)

These gorgeous summer flowering bulbs produce brilliant flowers which are carried well above the abundant foliage. They thrive superbly well in moist soil in shady spots. Bulbs may be started indoors in pots in March or April and transplanted outdoors when warm weather arrives, or they may be planted outdoors from mid-June on, or earlier, providing the soil is warm. Bulbs should be planted about 2 inches deep. Lovely delicate shades, as well as brilliant colors, as follows:
